

Spending time together as a family benefits your children in many ways.

# FAMILY ACTIVITIES

Create a model of a shield or stratovolcano. You can make this out of any materials you like! Extra points for labelling and explaining the parts/how they are made.

Create a times tables board game. This can be for a specific times table or a mixture. Include a set of instructions.

Go on a hunt for rocks. Can you identify whether they are igneous, metamorphic or sedimentary?

Write a fact file about a volcano.

What is a volcano?

How are they formed?

How do they erupt?

Include a diagram.

Write a shape poem about a volcano.

Write your own play script. You can choose your own characters and plot.

Create your own warm up for PE. Video it and send it to your teacher via Class Dojo.

Create a model of The Globe Theatre using any materials you have.

Create an orienteering map of an area you know i.e. the school grounds, your garden, the park etc.

Use your knowledge from the slingshot car you've made in DT to create your own version.

Act out a play with your family i.e. Shakespeare

Paint a portrait of Elizabeth I.

If you have time, choose an activity to do and send us some photographs!
